SMS Engagement

Automating parts of the recruiting process allows you to manage infinite customer data and communication easily and efficiently. When you are helping others find suitable employees, the amount of data compiled will be immense. Let software not only manage that data and keep it up to date, but help determine who will be targeted with each message and on what channel of communication. Staying organized is a key part of doing successful marketing automation, and a quality applicant tracking system helps.

Customer flow communication software featuring marketing automation tools will keep your firm optimized and clients happy. The best part, it will all be done automatically and at the ideal time.

Update Your Online Recruitment Messages Automatically

An automated recruitment solution [saves you the time](#) of manually updating messages such as emails and social media posts. Emails to clients and candidates can be sent out automatically that update them on progress that you have made, events that you are holding or any other relevant information. And your social media pages are a great place to show potential clients and candidates that your recruitment agency is active and current, but who has the time to constantly update social media posts every day? With an automated solution, you don't have to. Create hundreds of messages at a time and then schedule them to post over time so your social media pages almost manage themselves.

Automatically Send Relevant Messages to Specific Groups

Sometimes you don't have time to contact each client and candidate to let them know where they stand, but you don't want them to think you've forgotten about them. An automated recruitment solution can send out messages to these clients and candidates based on where they are in the process. [Build trust](#) by keeping them up to date with automated messages. And if you do have a potential candidate for a client and you want to alert both parties, automated personalized messages can be sent out right away. Automation helps to fill the gaps when you're busy yet still want to stay in touch.
